Software Engineering diploma student seeking a Junior Frontend Web Developer role. Builds responsive websites with HTML, CSS, JavaScript, Bootstrap and jQuery, and database-driven applications with ASP.NET Core, PHP and SQL. Has deployed seven live projects, including full-stack systems with authentication, role-based access and CRUD operations. Based in Karachi and available for entry-level roles.

CORE TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, jQuery, JSON, responsive web design
Backend: C#, ASP.NET Core (.NET), PHP; user authentication, role-based access, CRUD operations
Database: SQL, MySQL
Tools & Hosting: Git, GitHub, Netlify, InfinityFree, runasp.net
SEO: Basic on-page SEO techniques

PROJECTS

FanHub+ Fandom Community Platform | ASP.NET Core, C#, SQL, HTML, CSS
- Built a fandom community web application covering anime, games, movies, K-Pop, comics, manga and cosplay
- Implemented user registration and login with ASP.NET Core Identity
- Developed modules for categories, articles, events, merchandise shop, live polls, fan quizzes, leaderboard and a chatbot page
- Live: http://fanhub.runasp.net

PetFurShield Web Application | ASP.NET, C#, SQL
- Developed and deployed a database-driven web application using .NET and SQL
- Live: http://petfurshield.runasp.net

Online Portal System | ASP.NET, C#, SQL
- Developed and deployed a database-driven portal web application using .NET and SQL
- Awarded a certificate for completing the project
- Live: http://onlineportalsystem.runasp.net

Online Covid Test and Vaccination Management System | PHP, MySQL, HTML, CSS, JavaScript
- Built a web system with three interfaces: Admin Panel, Hospital Panel and Public Website
- Implemented user authentication, role-based access and CRUD operations using PHP and MySQL
- Admin panel manages hospitals, users, vaccination records and system settings; hospital panel manages patient registrations, Covid test records and vaccination status
- Live: https://faryal.infinityfreeapp.com/vaccination-system-main/Website/index.php

Handicraft Business Website (Aptech CPISM Project) | HTML, CSS, Bootstrap
- Designed a responsive business website using Bootstrap grid layout and consistent design principles
- Completed as the Aptech CPISM project and awarded a certificate
- Live: https://handicarft.netlify.app

Food Website | HTML, CSS, JavaScript
- Built a fully responsive food website for desktop and mobile screens and applied basic SEO techniques to improve search visibility
- Live: https://food-websit.netlify.app

Personal Portfolio Website | HTML, CSS, JavaScript
- Developed a responsive portfolio site showcasing skills, projects and contact details
- Live: https://faryal.netlify.app
